

DIRECTOR OF COMMUNICATION & PARTNERSHIP

WIZA HIDAYAT

Wiza is an entrepreneur, engineer, and designer who is shaping the future of sustainable development in Indonesia. As a leader at Arkadia Group & EcoBuild, he spearheads projects that seamlessly integrate design, technology, and sustainability.

Wiza also serves as Chairman of the Industrial Engineering Expert Council (BKTl) at the Institution of Engineers Indonesia (PII) and as a Board Member of the Indonesia Green Building Experts Association (IABHI), contributing to the advancement of engineering excellence and sustainable practices in Indonesia.

His contributions have earned him prestigious recognitions, including the Ganesa Wirya Jasa Utama from ITB for his support in education, and the Anugerah Avirama Nawasena from SBM ITB for innovation in services for sustainability. His works have also received international accolades such as the Architecture Masterprize (Los Angeles), Asia Pacific Property Awards (Bangkok), and Muse Design Awards (New York).

Wiza studied Industrial Engineering at Bandung Institute of Technology (ITB) and Design Management from University of the Arts London, UK.
