

DEPUTY OF COMMUNICATION & PARTNERSHIP

DIMAS PRAMESTU

Dimas Muhammad Pramestu is a Building Energy Auditor (BNSP Certified) and Greenship Professional (GBCI) with a bachelor's degree in engineering physics from Universitas Gadjah Mada. With expertise in energy management, renewable energy, and green building solutions, he has extensive experience leading energy audits, energy efficiency projects, and certification processes across various sectors in Indonesia.

Currently serving as the Chief Operating Officer at SAKA Total Energy Management (STEM Energy), Dimas oversees projects related to energy monitoring, ISO 50001-based management systems, and sustainability initiatives. His portfolio includes collaborations with major clients such as Pamapersada, bp Indonesia, and Toyota Manufacturing Indonesia, as well as advisory roles in national energy efficiency and water management programs.
